Ref: 160 S. Orchard Street, Lot 7 & 8

Dear Mr. Murphy,

In response to your inquiry dated August 23, 1993 (copy enclosed) the above referenced address, 160 S. Orchard St., Lots 7 & 8 are currently vacant and we are not aware of any septic system on these lots.

If I can be of any further assistance you can reach me at (206) 763-4244.

Sincerely,
Alaska Marine Lines, Inc.

RE: 160 S Orchard St , Lot 7 + 8

Dear Mr./Ms. Property Manager:

As part of the Sewer Outreach Program in cooperation with the Seattle Engineering Department, we are currently in the process of updating our files on privately owned septic systems in the City of Seattle. The Engineering Department has supplied us a list of addresses identified as unsewered properties. Your address appeared on the list.

If your property is presently vacant, please let us know for our information. If it is occupied and you have proof, on the contrary, that your property is now connected to sewer, please let us know and be prepared to provide information supporting your claim, e.g., connection date, permit number. However, sewer service utility bills alone are not absolute proof of sewer connection.

If, on the other hand, your occupied property is still served by a septic system, please notify us so that we can schedule a visit to your property and check the system for proper operation and maintenance. You are not required to connect to the nearest sewer within a distance of three hundred feet via an existing right-of-way, unless your system is failing or your property is sold or otherwise transferred (SMC 21.16.040).

Please call me at 296-4632 during the weekdays between 8:00 am and 10:00 am for more information or for scheduling a free dye test to verify sewer connection. Thank you for your cooperation.

Sincerely,

Patrick I. Murphy, R.S.
